

To whom it may concern,

I served as Arielle's Cooperating Teacher during her student teaching placement in my classroom from Fall 2015-Spring 2016. She demonstrated expertise in her field as well as a strong ability to cultivate strong and lasting relationships with her students. Arielle created dynamic and original lesson plans which spoke to her artistic mind, diligence and creative thinking. When I was ill, she stepped in in the role of substitute and maintained my curriculum with ease. My students grew under her instruction. She is an educational innovator and an asset to any community.

Best,

Meredith Towne
Upper Academy Lead Teacher, Academy for Software Engineering
